## Chief Officer's update December 2018

This is my last Chief Officer's Update for 2018 featuring news and highlights from NHS North Lincolnshire CCG.

### Thank you

I would just like to thank you all for your hard work during 2018. Whilst this has been challenging in many aspects, I feel that we have really worked hard as team to make the changes required.

I am delighted we have been able to make a number of senior appointments to the Governing Body and genuinely think North Lincolnshire CCG is on the right track as we close an extremely busy 2018. I know we still have a way to go but I think we have made some notable achievements this year.

I'd also like to extend a warm thanks to all members of the public who have taken the time to contribute to the work we do – whether that is through attending local Patient Participation Group or attending any of our meetings. Your feedback plays a pivotal role in determining local services.

### Long term plan for the NHS

The NHS has just launched its ten year vision, which has been called the Long Term Plan.

The plan is based around life stages with intervention programmes that focus

around early life, staying healthy and ageing well. Clinical priorities include cardio-vascular, cancer and respiratory, learning disabilities, autism and mental health.

The 'enablers' for the Long Term Plan will be workforce, primary care, digital innovation and technology, research and engagement.

At the regional meeting in York recently, NHS Chief Executive Simon Stevens shared the Long Term Plan and CCGs were asked specifically to contribute to three areas – workforce, improving productivity and efficiency and the development of integrated care systems.

Under the Long Term Plan, by 2020, every Sustainability and Transformation Partnership in the country will become an integrated care system where NHS organisations, in partnership with local councils and others, take collective responsibility for managing resources and improving the health of their populations.

While it is early days, this is obviously going to be a key element and focus for us in North Lincolnshire over the coming months in terms of how our own strategy aligns to the priorities of the wider plan.

### Lincolnshire Health Awards 2018

I'm delighted to say North Lincolnshire was heavily represented at this year's Lincolnshire Health Awards in Lincoln.

Almost 300 people attended and it was absolutely fantastic to see our region come away with two winners.

The Birches Medical Practice in Scunthorpe won GP Practice of the Year for the really innovative work they have done to help the homeless in the town centre.

In addition, Ancora Healthcare Limited won Pharmacy of the Year to make it a double for North Lincolnshire.

Furthermore, it was good to see the likes of Trent View Medical Practice and Damian Limited recognised for their hard work in the community.

Well done to all, this is a credit to all of the people and practices involved and hopefully we'll look to strengthen this work in 2019.

### Health Service Journal Awards 2018

The team at Hull CCG nominated me in the CEO of the Year category and it was an honour to be shortlisted and make the final in London on November 21<sup>st</sup>.

The support I have received from colleagues and partners across both Hull and North Lincolnshire has been humbling.

I must however congratulate a deserved winner in Lesley Watts, CEO of Chelsea and Westminster and West Middlesex University Hospitals Trust.

### Delegated Commissioning of Primary Care

The CCG has submitted an application to take on delegated commissioning of primary care.

This is a positive way forward as it will allow the CCG to have more influence over primary care resource in conjunction with practices.

### CCG team changes

We were delighted to welcome our new Chief Operating Officer, Alex Seale, to the CCG at the start of November.

Alex replaces Julie Warren, who held an interim position, and comes from East Riding CCG and has a wealth of experience and expertise.

I'd like to thank Julie for her hard work and wish her well as she returns to her substantive role at NHS England.

### Stay well this winter

Daily winter reporting began last month and we have refined our system plans in preparation for colder weather.

We are working with partners to promote the appropriate use of urgent healthcare services. Our aim is to give members of public a better understanding of how to find their quickest treatment. Find out more at [www.staywellthiswinter.co.uk](http://www.staywellthiswinter.co.uk)

### And finally...

As this is my last update of 2018, it is a chance to reflect on what has been an exceptional year for North Lincolnshire CCG. You should all be very proud of what we have achieved as a team and I want to wish you all a fantastic Christmas and New Year - looking forward to what 2019 might bring!
